

# SCIENCE INVESTIGATORS

## October 2009

10/6  
Taste

Does one flavor enhance another? Is it possible to make sweet sweeter? Experiments using some of your 10,000 taste buds. (Chocolate may be involved!)

10/13

Heart and Lungs

We will look into (literally) the two organs that provide oxygen and nutrients for all the cells in the body.

10/20

The 5-Senses Crime

Who really did steal the cookies from the cookie jar? It will take all of our senses to solve this “sense-full” crime. Bring your thinking caps today.

10/27

Birds of Prey

We will study the food chain, learn about how birds that are predators are endangered, and discover how one relates to the other.
