

SCIENCE INVESTIGATORS

October 2011

10/4, 10/6

Taste

Does one flavor enhance another? Is it possible to make sweet sweeter? Experiments using some of your 10,000 taste buds. (Chocolate may be involved!)

10/11, 10/13

Heart and Lungs

We will look into (literally) the two organs that provide oxygen and nutrients for all the cells in the body.

10/18, 10/20

The 5-Senses Crime

Who really did steal the cookies from the cookie jar? It will take all of our senses to solve this “sense-full” crime. Bring your thinking caps today...and wear an old pair of shoes.

10/25, 10/27

Birds of Prey

We will study the food chain, learn about how birds that are predators are endangered, and discover how one relates to the other.

Remember: Usborne Book Fair 10/13-10/14 in the science room. There are beautiful books including terrific science books that make great birthday and holiday presents. Science parents welcome. Please stop by.

Note: Save some Halloween candy to bring to class 11/1 or 11/3.

Note to note: Candy will not be returned in the same condition it was in when it arrived. (In fact, be grateful it will not be returned at all. Mad Scientists + Halloween candy = ???)
