

SCIENCE INVESTIGATORS

November 2011

11/1, 11/3

Candy Science

Bring in four different pieces of candy from your weekend Trick or Treating. We will calculate the total amount of sugar gathered and then test for other chemicals in the goodies.

11/8, 11/10

Step into my Parlor

They have two body parts, eight jointed legs and multiple eyes in common. But these predators use many different techniques to hunt, trap and kill their prey. Tonight we are going to think like a spider in order to capture our nourishment.

11/15, 11/17

The Plants and Animals of the Rainforest

We will learn about this endangered habitat and what its loss would mean to us. Snack today will be a rainforest salad.

11/23

Thanksgiving Week—No Science Tuesday or Thursday

11/29, 12/1

Tropical and Pacific Northwest Rainforests, continued

Listening to the sounds of the rainforest, we make rainforest cookies.

Happy Thanksgiving to all
